YA GOTTA KEEP YOUR EYES ON THESE GUYS...Students have used their credit cards to pay off school debts and then stopped payment on that charge. By then, they've got their transcripts and they are gone, gone, gone! We have a new form that the student can sign which authorizes us to debit their credit card for that payment. So, call us! We will fax you the form (which the student will sign and you can fax right back) and you can get accurate payoff amounts at the same time!

GOT SOME OLD DEBTS?? You bet we do! We are offsetting taxes for debts that go back as far as 1987 and maybe even beyond. Debtors are furious, but the law is the law. You may be called on to justify old debts, so, try and keep as many records and notes as possible. Even the type of service provided will calm the cranky old debtors. Thanks!

YOUR PAST NIPPING AT YOUR HEELS?? Some debtors feel that way. Even after they pay off their debt, their credit report will show the debt for up to seven years. Many debtors call us and want their credit records cleaned up. We will report that the debt is paid, but we do not have the authority to delete it from their credit history. It may dog you for a while after you've paid.
